The programme for the year will feature large scale mass participation spectacle and intimate moments of wonder. music, dance, theatre and poetry as well as many more celebratory cultural and heritage experiences in every ward of the city. The programme will touch on the city's rich history, heritage and diverse communities whilst taking a bold, future-facing approach, exploring narratives about the most pressing issues for our citizens, country and planet in the years to come.

### **About the Project**

'Theatre of Wandering' is a new theatre performance created from a community's experiences and reflections about what it is to care for one another. It will be created with residents of the Ball Hill neighbourhood in Coventry and presented in the city centre as part of Coventry City of Culture.

It will be the story of an older man searching for his wife through a neighbourhood and the interconnected lives of the people he meets. The work will be propelled by a narrative that explores memory, change, the different ways that we experience space and place when living with dementia and other age-related conditions. The story will explore ideas of care, reciprocity and possibility.

Shopkeepers, school children, residents of all ages, health and care workers will come together to creatively share a neighbourhood's hidden stories and its relationship to some of its most vulnerable citizens. Working with a multi-disciplinary team of freelance artists, a writer/dramaturg and theatre directors, a diverse company of local people will be supported to co-create an immersive theatre experience that will be performed within the streets, shops, homes and public spaces of where they live.

Ball Hill is a diverse neighbourhood in inner Coventry, about 2 miles east of the City Centre. Originally we had planned to perform along the high street and in shops of Ball Hill, however social distancing will now prohibit this. Instead, we are delighted to take the stories of people in Ball Hill into Coventry City Centre; the final performance will be reflect a community's journeys and memories from local streets to across the city and beyond.

Our aim is that audiences will experience alternative (and often invisible) realities of Coventry through the compound experiences of many of the city's older citizens. We want all audiences, but especially children and younger people, to be taken by surprise, to find excitement and become more curious: to see and understand the experiences of living with dementia from different perspectives.

In the times when we move slowly back into public space after our private Covid lockdowns, we ask how can city spaces be transformed into environments where all can flourish and belong? We want to invite audiences to reimagine concepts of care both in public and domestic spaces - older generations, and people of all ages and backgrounds - ultimately leading to questions

of how all public spaces can become a little more friendly for everyone, even how our cities can care for individuals.

The work will be forged through a collaboration between Entelechy Arts, Japanese performance company OiBokkeShi and producing teams from Coventry City of Culture 2021. The production will be inspired by OiBokkeShi's acclaimed neighbourhood based performance 'Night Never Gets Darker'. Theatre of Wandering will be co-directed by Naoki Sugawara (OiBokkeShi) and David Slater (Entelechy Arts).

The project will be developed in four stages in April – September 2021.

In stage 1 we will work with a range of arts and health and social care partners from Coventry and Warwickshire carefully weaving creative processes into existing mechanisms of care and support. The process and final performance to be informed by the life experiences and imaginations of people who would not ordinarily be involved in the creation of a work of art.

In stage 2 we will establish cross-generational devising clusters bringing different groups of people together to share experiences, explore ideas and help shape narrative. This includes three artistic commissions:

- A Sound Commission will gather stories, music and other sound fragments from older people, including adults living with dementia and their caregivers, from Ball Hill. This will create a sound geography of the city, mapping out people's memories and connections to local public space.
- An Animation Commission will tell a story of everyday, domestic spaces for people living with dementia. It will be co-created with the imaginations of school students (age 9-11) and older people in Ball Hill, with workshop sessions also incorporating learning resources from the Alzheimer's Society.
- A Dramaturg/Writer will be a crucial listening point for stories of citizens and professionals across the city including health and social care teams, shopkeepers and police. Through informal conversations and structured workshops, these stories will be documented and used, along with the Sound Commission and Animation Commission, to form the content for Theatre of Wandering.

In stage 3 a community cast will be formed and the co-created play will be rehearsed. We are interested in blurring lines between fiction and reality within this process. Shop keepers, district nurses, care workers will be performing in the work in addition to people living with dementia and their caregivers, children and families and professional performers.

Stage 4 is live and streamed public performances of Theatre of Wandering in Coventry, 18-19 September 2021. Additional content from the Commissions will also be available online and other via other platforms (e.g. radio).

Theatre of Wandering is commissioned by Coventry City of Culture 2021, with additional support from the Daiwa Foundation and Community Fund and other funders to be confirmed.
